

Status: Complete

Note: The hardest part of this assignment was the UML diagram/sequence/java code or the first 3 problems because I have never done UML or anything of the sort. It took studying many examples and videos for me to figure it out.

GitHub Repo: <https://github.com/NikuuSamma/CS445/tree/master/nick-garcia-lara-hw2>

Lines of code: 100

Lines of code (Unit tests): 61

Unit Test Coverage via eclipse: 48%

Cyclometric Complexity: N/A

Hours spent working: 15

Hours spent preparing submission: 2
